

# INDUSTRIAL SIRENS ACOUSTIC

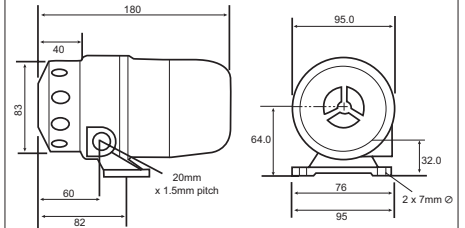

## Acoustic Signals > Mechanical Sirens AS100M & AS200M Series

### Product Overview

These sirens have been designed for a range of applications where a high output sound is required. Both the AS100M and AS200M are manufactured for industrial

environments and have a mounting bracket for ease of installation. They are also rugged in construction and are weatherproof to IP65. Suitable for arduous conditions including mining and quarrying applications.

AS100M

AS200M

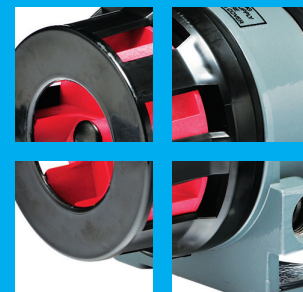

### Features

- High output siren sound
- Rugged construction
- Mounting bracket for ease of installation
- Continuously rated
- 1 x M20 Cable Entry
- IP65

### Material

- Cast Aluminium Body
- ABS Rotor, Stator and Cover
