

INDUSTRIAL SIRENS ACOUSTIC

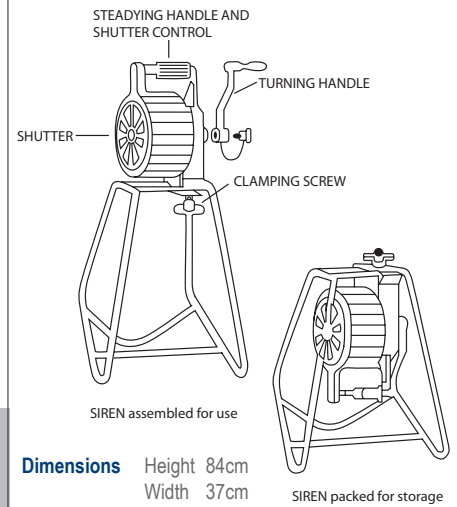

Acoustic Signals > Heavy Duty Hand Operated Siren AS500M Series

Product Overview

This heavy duty hand operated siren is designed to provide effective warning in applications where there is no power supply such as camp sites, civil defence, mountain rescue and coast guard warning.

Powered by rotating the handle, this siren has a plate to shut off the sound once up to speed giving it the ability to produce three different tones.

Robust and compact, the siren can be easily transported to remote locations and folds up to a small size for ease of handling.

Dimensions Height 84cm
Width 37cm
Depth 48cm

SIREN packed for storage
