

Audible Signals EXPLOSION PROOF BEACONS

Explosion Proof Audible Sounders > EAE Series

Product overview

Suitable for general signalling duties, their robust construction makes installation in the harshest of environments possible. Additional features include automatic synchronisation on multi-beacon systems and stainless steel guard as standard.

The enclosures are manufactured from corrosion proof, marine grade copper free LM6 aluminium which is phosphated and powder coated. All models have two M20 cable entries and large termination areas.

Features

Rated for Category 1 use (formerly Zone 1 & 2)

ATEX approved
