

# Visual Signals XENON

## BEACONS

## Industrial Xenon Beacons > X125 Series

### Product overview

The X125 Series utilises a discharge capacitor and converter circuit to ignite xenon gas inside a tube, resulting in a brilliant flash of light. Xenon gas ignites virtually instantaneously so maximum brightness is

obtained immediately. Xenons have an added advantage of low current consumption combined with a reasonable life span. The design of the X125 series ensures a 360-degree light output. Xenon beacons are one of the most efficient, effective and brightest visual signals available.

### Features

Continuously rated

Suitable for use with conduit BESA box

Suitable for surface or wall mounting

Optional wall bracket & protective guard available - see accessory page

360° visibility

IP65

### Material

UV Stable Polycarbonate Lens

UV Stable ABS Plastic Base
