

Acoustic Signals - Fire ELECTRONIC SOUNDERS

Deep Base

Shallow Base

Acoustic Signals Electronic Sounders > EN54 Sonos Sounder Series

Product overview

With the TimeSaver base, connections are made to the base during the initial wiring phase, which results in a faster and more reliable installation. The Sounder head 'twists and clicks' onto the base on commissioning, avoiding the wiring and connection problems associated with traditional sounders.

With a choice of 32 tones including all the major international standards, the Sonos Sounder has universal acceptance.

Deep Base units have weatherproof protection to IP65 and can be used in all locations both indoors and outdoors. Sonos Sounder units are available in either Red or White and with a choice of Deep or Shallow TimeSaver bases.

Features

- Wide voltage range
- 2 Alarm stages and 32 tones
- Cable Entries: Deep Base: 2 x 20mm Cable Glands
- VdS Approved
- Synchronised alarm tones
- Compliance: EN54-3 Type A (Shallow Base) EN54-3 Type B (Deep Base)
- Volume control - Typical 8dB
- IP65 (Deep Base unit only)

Material

Flame Retardant Polycarbonate

EN54 Sonos Sounder Series > Ordering Information

| Code No: | Voltage: | Colour: | Current: (tone dependent) |
|-------------------------|-----------------|---------|------------------------------|
| PSS-0003 (Shallow Base) | 9-60v DC --- | Red | 4-41mA |
| PSS-0039 (Shallow Base) | 9-60v DC --- | White | 4-41mA |
| PSS-0020 (Deep Base) | 9-60v DC --- | Red | 4-41mA |
| PSS-0050 (Deep Base) | 9-60v DC --- | White | 4-41mA |
| PSS-0060 (Deep Base) | 115-230v DC --- | Red | 4-41mA |
| PSS-0063 (Deep Base) | 115-230v DC --- | White | 4-41mA |
