Yodal® Ex
YL4IS

Intrinsically Safe Device

Audible signal for use in Potentially Explosive Atmospheres

PRODUCT FEATURES

- **Max sound output 100 dB (A) 1m**
- **IP65 rated****
- **LED Long Life Array**
- **32 selectable tones meeting international regulations**
- **2 stage alarm**
- **Flame retardant ABS & Polycarbonate enclosure**
- **Low current consumption**
- **Modular signal flexibility**
- **Lenses available in 8 colours**
- **ATEX & IECEx* Approved**
- **Zones 0, 1, 2, 20, 21, 22**

Product Approvals

CE
Sounder Certificate Number:
ERO22ATEX0002X

Beacon Certificate Number:
ERO22ATEX0001X

Ex ATEX
Sounder Certificate Number:
EMA22UKEX0004X

UKCA
Beacon Certificate Number:
EMA22UKEX0003X

IEC IECEx
Beacon Certificate Number:
IECEx EMT 22.0001X (Pending)

Issue 2

TECHNICAL DATA

Certification

Type	Product Approvals
YL4IS/ISC/T4	II 1 G Ex ia IIC T4 Ga II 1 D ia IIIC T_{200} 110°C Da
Zones	0, 1 & 2 (Gas Groups > IIC) 20, 21 & 22 (Dust Group > IIIC)
Conforms to	IEC 60079-0:2017, EN IEC 60079-0:2018 IEC 60079-11:2011, EN 60079-11:2012
*Sounder ATEX approved only, LED Beacon ATEX & IECEx approved	

Ambient Conditions

Operating temperature	-25 °C to +40 °C
Storage temperature	-40 °C to +70 °C
Max. Relative humidity	95% at 40 °C

Acoustic Data

Maximum Volume Output	100dB (A)
Volume Control Adjustment	-15 dB (A)
32 selectable tones via DIL-switch	
2 Stage Alarm with predetermined second stage as standard.	

Luminous characteristics

Light Emitting Diode	8 off LED Array
Flash Rate	60 FPM (1Hz)
Lens Colour	Amber, Yellow, Red, Green, Opal, Blue, Magenta, Clear

Mechanical Data

Enclosure Material	ABS FR UL94 5VB
Lens Material	UV Stable Polycarbonate
External Fixings	Stainless Steel
Degree of protection	Up to IP65 (IEC60529) ** Subject to the correct cable gland being fitted

Electrical Data

Operating Voltage	16.2 to 26.4V		
Current consumption	Power Supply	Certified barrier / Isolator parameters	Current Consumption Tone 1
	24vDC	28v/300 Ω	24 mA
	18vDC	28v/300 Ω	33 mA
	(Current for combined operation)		

Certified input parameters		**Beacon**	**Sounder**
Independent Wiring	$U_i =$	28v	28v
	$I_i =$	93 mA	93 mA
	$P_i =$	0.66w	0.66w
	$C_i =$	0	0
	$L_i =$	0	0
Combined Supply (1x Beacon & Sounder)	$U_i =$	28v	
	$I_i =$	93 mA	
	$P_i =$	0.66w	
	$C_i =$	0	
	$L_i =$	0	
Line monitoring	Yes		

Line integrity on DC systems

If line monitoring is required an end-of-line resistor is needed and should have a minimum resistance of 750 Ohm and rated power of at least 2W or a 4700 Ohm and a rated power of at least 0.4W. For end of line monitoring, a suitable barrier/isolator will be required that allows for reverse polarity connection (see page 4 for Moflash recommend barriers)

Mounting

The back boxes should be securely mounted to suitably flat wall or bulkhead using the internal fixing points moulded into the back boxes. Areas of undue vibration should be avoided. Always use the mounting gaskets supplied. The recommended fixing screws are 4.5mm Dia x 20mm long. To maintain the IP rating of the enclosure the cable entries used must be fitted with a suitably rated cable gland (not included). Max cable termination is $2.5mm^2$.
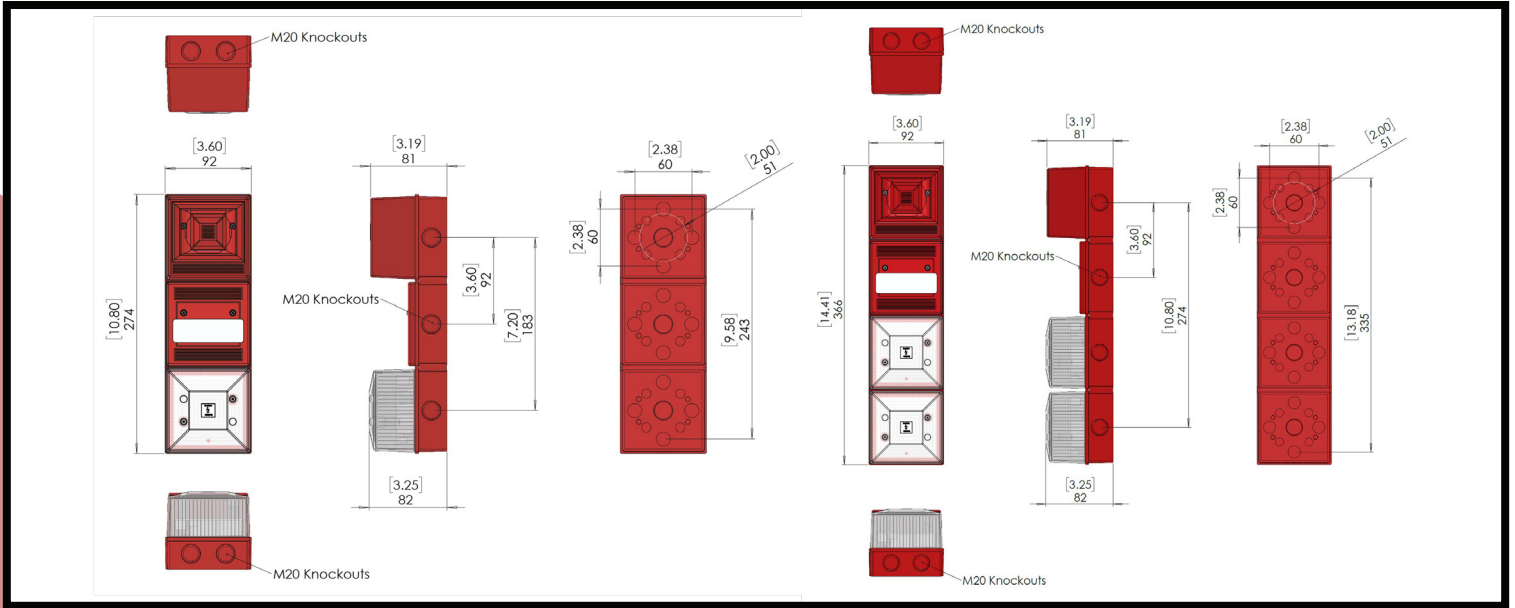

Installation

To maintain the Intrinsically Safe integrity of the product a suitable rated Galvanic Isolator or Zener barrier must be used (see Electrical Data table for entity parameters and also page 4 for Moflash recommended products).

The YL4IS can be wired as individual components (i.e. sounder and beacon on separate channels) or the sounder and beacon can be wired together to activate at the same time on one channel, however the entity parameters must be observed for both variations.

A YL4IS unit with multiple beacons must have a separate isolator/barrier channel for each beacon, this allows independent operation of each colour beacon and also maintains the safety of the product. Under no circumstances can 2 beacons be powered from the same channel of a Barrier/Isolator.

Dimensional Drawing

Moflash reserves the right to make alterations to the technical data, dimensions, weights, designs and products available without notice. The illustrations cannot be considered binding. All Dimensions in mm [inches] - Subject to alterations

SELECTION

Product Approval	Enclosure Colour	Safety Barrier	Temperature Class	Lens Colour	Effective Candela	Order Code (Single Beacon)	Art. No.	Weight (Kg)
YL4IS Sounder/Beacon ATEX Approved	Red Normal (RN) RAL 3001	ISC	T4	Amber	2.68	YL4/ISC/T4/A/RN	211533	0.64

Systems Installation

The Sounder must be installed in accordance with the latest EN 60079-0 & EN 60079-11 standards or equivalent IEC standards, with consideration for any local installation requirements, and should only be carried out by appropriately competent and qualified personnel. Moflash Signalling is not able to offer any assistance with additional system parameters beyond that included on the installation sheet, and can not give advise on individual system installations. The system integrators should be contacted for any additional installation requirements.

ACCESSORIES

WARNING: Connection into the Sounder/Beacons must be via a suitably rated Zener Barrier or Galvanic Isolator. Never connect the sounder or beacon directly to the voltage supply without a barrier in place. Failure to do so will result in permanent damage to the PCB & void the warranty.

Product		Description	Order number	Art. No.	Weight
Zener Barrier		Single Channel DC	Z 728	071788	0.150
		Single Channel AC	Z 928	071857	0.150
